- ▶ Tilldelning och krav

The diagram illustrates a cryptographic process. It starts with a message 'HEJAN' in a red box. This message is combined with a key '101110' (in a red box) through a process labeled 'Kryptering' (Encryption), resulting in a ciphertext 'Y48IN' in a grey box. This ciphertext is then combined with the same key '101110' through a process labeled 'Dekryptering' (Decryption), resulting in the original message 'HEJAN' in a red box.

Om det saknas system eller förutsättningar

- ▶ Kurir
- ▶ REK/Värdepost

The image shows a white envelope with a red and blue logo at the top. The envelope has some text and icons on it, including a recycling symbol and a logo that looks like 'REK'. It is placed on a dark surface.
